

✚ Meet ProArc at the Essen Show Sept. 14th ~ 19th at Hall 1 Stand No.: 403

We are exhibitors.
Hall 1 Stand No.403

ProArc will exhibit its newest line of CNC cutting systems with plasma beveling device, sheet metal laser cutting system and standalone welding products like digital welding positioners, tilt style main frame design automatic circumferential welder and laser welding package. For more product information, visit our website www.proarc.com.tw

Sponsored by ProArc, who have excellent experience in the world of metal artworks, once again spectators will have the chance to see the creations of the most well known, talented and accomplished metal sculpture artist, Mr. Liang-Tsai Lin at ProArc's booth - **Hall 1 Stand No.: 403.**

✚ New Precision Digital Welding Positioner

ProArc had released its brand new precision digital welding positioner that is designed for steel fabrication automatic application to position the jobs accurately for “downhand” welding in the shortest possible time instead of using cranes and manpower. For more information, visit our website

http://www.proarc.com.tw/english/product/solder_pt_01.asp

✚ New CW-350R Circumferential Welder

Circumference welding machine is designed for different welding demands and its welding angle could be adjusted based on customer application, for example, circumference, flange, and cap. Besides, it's equipped with full digital and PLC control to support

flexible welding process setting and multiple programmable welding sequences edit.

✚ Master 40 - Plasma Cutting in Factoria Metálica S.C. Haug, Peru

On April 14, 1949, Danish engineer Send Haug Andersen established Factoria Metálica S.C. Haug., engaged in the manufacture and assembly of metallic tanks for hydrocarbon storage.

Along the years, Factoria Metálica S.C. Haug, expanded its services and products to the manufacture of pipes, ducts, chutes, metallic structures, warehouses, industrial installations and assembly engineering such as the execution of turn key projects.

We're happy what Oscar (Chief Engineer of Factoria Metalica) had said ***"We've selected ProArc Master 40, because when we saw the machine physically and after using the machine, we experienced the good quality cut and reliability that exceed our satisfaction and expectation"***.

Above information was provided by our distributor in Peru SOLDEX S.A Mr. Pedro Sanchez Silva Cruz.

✚ The Creations of Mr. Liang-Tsai Lin

Mr. Liang-Tsai Lin who just reached the age of 60 last year is a gifted metal sculpture artist. Seeing his artworks will inspire anyone right straight into their heart and soul. In his silent world, no physical limitations rules and engraves his creations.

Lin transcends and reconciles the power and beauty of human's body and outside reality. The human nature struggling the capability to control oneself are demonstrated and built in his works. If you are interested in Mr. Lin's creations, visit <http://www.artliang.com.tw>.

Drill+ Auto Drill Machine

Drill+ auto drilling machine is especially designed to perform high productivity drilling for various sizes of steel plates in the bridge and steel structure industries. It is suitable for connection plate hole drilling, tapping & long hole milling, matrix heating exchanger panel, etc.

Drill+ is now available in cantilever and gantry type with hydraulic and servo control. The most pleased design is the 4 drills on a spindle. Its special design will increase the drilling efficiency, save the labor time and raise your productivity. <http://www.proarc.com.tw/english/product/drill.asp>

FABTECH® Mexico, June 2 - 4, 2009

Hardly to believe, everyone at the FABTECH Mexico show were busy and seems not influenced in spite of H1N1 flu that impacted Mexico. This was the first FABTECH exhibition held in Mexico. More than 300 exhibitors and well known brands have shown their advance and latest technology in its own field. As usual,

ProArc launched Master 35 cutting machine and welding equipment such as EZ-Arc welding system, PT-450, TR-0100, etc. Our partner Distribuidora Metalica S.A. de C.V. did enjoy and have amazing sales result from this show.
